V. Spotlighting Cristina Vomero and Energies-n-Sync

Cristina is an Emergency Room Physician Assistant. She is also a Certified Eden Energy Medicine/Functional Medicine Practitioner. Cristina created Energies-n-Sync as a holistic approach to correct imbalances in the body (i.e. - stress, toxins, physical impairments, etc). It involves restoring balance by tapping, massaging, holding acupoints, and other energetic movements. Each one-hour session takes place with the client fully clothed on a massage table. Follow-up exercises keep energies in sync until the next visit. Cristina's words of wisdom: "Your body is designed to heal itself." (Donna Eden)
